

Safety Data Sheet 1300303 according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations Date of issue: 10/18/2018 Version: 1.0

1.1. Identification		
Product form	: Substance	
Substance name	: trans-1,2-Difluoroethylene	
CAS No	: 1630-78-0	
Product code	: 1300-3-03	
Formula	: C2H2F2	
Synonyms	: E-1,2-Difluoroethylene	
Other means of identification	: MFCD00077511	
1.2. Relevant identified uses of the s	substance or mixture and uses advised against	
Use of the substance/mixture	: Laboratory chemicals Manufacture of substances Scientific research and development	
1.3. Details of the supplier of the saf	fety data sheet	
SynQuest Laboratories, Inc. P.O. Box 309 Alachua, FL 32615 - United States of Americ T (386) 462-0788 - F (386) 462-7097 info@synquestlabs.com - www.synquestlabs		
1.4. Emergency telephone number		
Emergency number	: (844) 523-4086 (3E Company - Account 10069)	
SECTION 2: Hazard(s) identificati	ion	
2.1. Classification of the substance		
Classification (GHS-US)		
STOT SE 3 H335 - May cause respirat	tory irritation	
Full text of H-phrases: see section 16		
Full text of H-phrases: see section 16 2.2. Label elements		
Full text of H-phrases: see section 16 2.2. Label elements GHS-US labeling		
Full text of H-phrases: see section 16 2.2. Label elements GHS-US labeling Hazard pictograms (GHS-US)	: KINDE	
Full text of H-phrases: see section 16 2.2. Label elements GHS-US labeling Hazard pictograms (GHS-US) Signal word (GHS-US)	: Danger	
Full text of H-phrases: see section 16 2.2. Label elements GHS-US labeling Hazard pictograms (GHS-US) Signal word (GHS-US)	_	
Full text of H-phrases: see section 16	 Danger H220 - Extremely flammable gas H280 - Contains gas under pressure; may explode if heated H335 - May cause respiratory irritation H336 - May cause drowsiness or dizziness 	

Safety Data Sheet according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

trans-12-Difluoroethylene (Mein constituent) c= 100 Simple Asply, H380 [Mein constituent) Fill Ext of H-phrases: see section 16 3.2. Mixture Not applicable SECTION 4: First aid measures First-aid measures general : In case of accident or if you feel unwell, seek medical advice immediately (show the 1 where possible). Move the affected personnel away from the contaminated area. First-aid measures general : In case of accident or if you feel unwell, seek medical advice immediately (show the 1 where possible). Move the affected personnel away from the contaminated area. First-aid measures after skin contact : The wore person to fresh air and keep comfortable for breathing, if no therathing, give respiration. Get immediate medical advice/attention. First-aid measures after skin contact : Thew foosted parts with lukewarm water. Do no rub affected area. Get immediate me advice/attention. First-aid measures after ingestion : Due to its physical form, exposure to this chemical is not likely. Do NOT induce vomit give anything by mouth to an unconscious person. Rinse mouth out with water. Get n advice/attention. 4.2. Most important symptoms and effects, both acute and delayed Symptoms/injuries after inhalation : May cause drowsiness or diziness. Symptoms/injuries after inhalation : May cause drowsiness or diziness. Symptoms/injuries after inhalation : May cause drowsiness or diziness.	Other hazards

advice/attention. First-aid measures after eye contact : Remove contact lenses, if present and easy to do. Continue rinsing. Immediately flus thoroughly with water for at least 15 minutes. Get immediate medical advice/attention First-aid measures after ingestion : Due to its physical form, exposure to this chemical is not likely. Do NOT induce vomit give anything by mouth to an unconscious person. Rinse mouth out with water. Get m advice/attention. 4.2. Most important symptoms and effects, both acute and delayed Symptoms/injuries : The most important known symptoms and effects are described in the labelling (see s 2.2) and/or in section 11. Symptoms/injuries after inhalation : May cause drowsiness or dizziness. Symptoms/injuries after eye contact : Contact with the liqueified gas may cause severe and possibly permanent eye is to forstbite from rapid liquid evaporation. 4.3. Indication of any immediate medical attention and special treatment needed No additional information available : Alcohol resistant foam. Carbon dioxide. Dry powder. Water spray. Use extinguishing appropriate for surrounding fire. 5.1. Extinguishing media : Alcohol resistant foam. Carbon dioxide. Dry powder. Water spray. Use extinguishing appropriate for surrounding fire. 5.2. Special hazards arising from the substance or mixture : Thermal decomposition generates: Carbon oxides. Hydrogen fluoride. Fire hazard : Thermal decomposition generates: May form		: Remove person to fresh air and keep comfortable for breathing. If not breathing, give artificial respiration. Get immediate medical advice/attention.	
First-aid measures after ingestion : Due to its physical form, exposure to this chemical is not likely. Do NOT induce vomit give anything by mouth to an unconscious person. Rinse mouth out with water. Get n advice/attention. 4.2. Most important symptoms and effects, both acute and delayed Symptoms/injuries : The most important known symptoms and effects are described in the labelling (see s 2.2) and/or in section 11. Symptoms/injuries after inhalation : May cause drowsiness or dizziness. Symptoms/injuries after skin contact : Contact with the liquid the may cause cold burns/frostbite. Symptoms/injuries after eye contact : Direct contact with the liquid the may cause severe and possibly permanent eye i to frostbite from rapid liquid evaporation. 4.3. Indication of any immediate medical attention and special treatment needed No additional information available : Alcohol resistant foam. Carbon dioxide. Dry powder. Water spray. Use extinguishing appropriate for surrounding fire. 5.1. Extinguishing media : Alcohol resistant foam. Carbon dioxide. Dry powder. Water spray. Use extinguishing appropriate for surrounding fire. 5.2. Special hazards arising from the substance or mixture : Thermal decomposition generates: Carbon oxides. Hydrogen fluoride. Fire hazard : Thermal decomposition generates: Carbon oxides. Hydrogen fluoride. : Contains gas under pressure; may explode if heated. Use water spray or fog for cool exposed containers. May form flammab		: Thaw frosted parts with lukewarm water. Do no rub affected area. Get immediate medical advice/attention.	
give anything by mouth to an unconscious person. Rinse mouth out with water. Get n advice/attention. 4.2. Most important symptoms and effects, both acute and delayed Symptoms/injuries : The most important known symptoms and effects are described in the labelling (see s 2.2) and/or in section 11. Symptoms/injuries after inhalation : May cause drowsiness or dizziness. Symptoms/injuries after skin contact : Contact with the liquid the may cause cold burns/frostbite. Symptoms/injuries after eye contact : Direct contact with the liquefied gas may cause severe and possibly permanent eye i to frostbite from rapid liquid evaporation. 4.3. Indication of any immediate medical attention and special treatment needed No additional information available SECTION 5: Firefighting measures 5.1. Extinguishing media : Alcohol resistant foam. Carbon dioxide. Dry powder. Water spray. Use extinguishing appropriate for surrounding fire. 5.2. Special hazards arising from the substance or mixture : Thermal decomposition generates: Carbon oxides. Hydrogen fluoride. Fire hazard : Thermal decomposition generates: Carbon oxides. Hydrogen fluoride. Explosion hazard : Contains gas under pressure; may explode if heated. Use water spray or fog for cooli exposed containers. May form flammable/explosive vapor-air mixture.		: Remove contact lenses, if present and easy to do. Continue rinsing. Immediately flush eyes thoroughly with water for at least 15 minutes. Get immediate medical advice/attention.	
Symptoms/injuries : The most important known symptoms and effects are described in the labelling (see s Symptoms/injuries after inhalation : May cause drowsiness or dizziness. Symptoms/injuries after skin contact : Contact with the liquid the may cause cold burns/frostbite. Symptoms/injuries after eye contact : Direct contact with the liquiefied gas may cause severe and possibly permanent eye is to frostbite from rapid liquid evaporation. 4.3. Indication of any immediate medical attention and special treatment needed No additional information available SECTION 5: Firefighting measures 5.1. Extinguishing media Suitable extinguishing media : Alcohol resistant foam. Carbon dioxide. Dry powder. Water spray. Use extinguishing appropriate for surrounding fire. 5.2. Special hazards arising from the substance or mixture Fire hazard : Thermal decomposition generates: Carbon oxides. Hydrogen fluoride. Explosion hazard : Contains gas under pressure; may explode if heated. Use water spray or fog for coolie exposed containers. May form flammable/explosive vapor-air mixture.	id measures after ingestion	give anything by mouth to an unconscious per	
2.2) and/or in section 11. Symptoms/injuries after inhalation Symptoms/injuries after skin contact Symptoms/injuries after eye contact Symptoms/injuries after eye contact Direct contact with the liquid the may cause cold burns/frostbite. Direct contact with the liquid evaporation. 4.3. Indication of any immediate medical attention and special treatment needed No additional information available SECTION 5: Firefighting measures 5.1. Extinguishing media Suitable extinguishing media : Alcohol resistant foam. Carbon dioxide. Dry powder. Water spray. Use extinguishing appropriate for surrounding fire. 5.2. Special hazards arising from the substance or mixture Fire hazard : Thermal decomposition generates: Carbon oxides. Hydrogen fluoride. Explosion hazard : Contains gas under pressure; may explode if heated. Use water spray or fog for cooli exposed containers. May form flammable/explosive vapor-air mixture. exposed containers. May form flammable/explosive vapor-air mixture.	azard		
5.3 Advice for firefighters	sion hazard		
J.J. Advictor intelignets	Advice for firefighters		
Firefighting instructions : In case of fire: Evacuate area. Fight fire remotely due to the risk of explosion.	Inting instructions	: In case of fire: Evacuate area. Fight fire remote	ely due to the risk of explosion.
Protection during firefighting : Wear gas tight chemically protective clothing in combination with self contained breat apparatus. For further information refer to section 8: "Exposure controls/personal protective clothing in combination with self contained breat apparatus."	tion during firefighting		

SECTION 6: Accidental release measures		
6.1.	Personal precautions, protective equi	ipment and emergency procedures
General	measures	: Evacuate unnecessary personnel. Ensure adequate air ventilation. May cause suffocation by reducing oxygen available for breathing. Do not breathe gas, fumes, vapor or spray.

Safety Data Sheet according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

6.1.1. For non-emergency personnel	
Emergency procedures	: Only qualified personnel equipped with suitable protective equipment may intervene.
6.1.2. For emergency responders	
Protective equipment	: Do not attempt to take action without suitable protective equipment. For further information refer to section 8: "Exposure controls/personal protection".
Emergency procedures	: Gas/vapor heavier than air. May accumulate in confined spaces, particularly at or below ground level. Consider the risk of potentially explosive atmospheres. Eliminate every possible source of ignition.
6.2. Environmental precautions	
Avoid release to the environment. Notify authors	prities if product enters sewers or public waters.
6.3. Methods and material for contain	ment and cleaning up
For containment	: Stop leak if safe to do so.
Methods for cleaning up	: Ventilate area.
Other information	: For disposal of solid materials or residues refer to section 13 : "Disposal considerations".
6.4. Reference to other sections	
No additional information available	
SECTION 7: Handling and storage	
7.1. Precautions for safe handling	
Additional hazards when processed	: Pressurized container: Do not pierce or burn, even after use. Handle empty containers with care because residual vapors are flammable. Close valve after each use and when empty.
Precautions for safe handling	: Do not handle until all safety precautions have been read and understood. Ensure good ventilation of the work station. Do not breathe fumes, gas, mist, spray, vapors. Wear personal protective equipment. Avoid contact with skin and eyes. Keep away from ignition sources (including static discharges). Proper grounding procedures to avoid static electricity should be followed. Use only non-sparking tools.
Safe handling of the gas receptacle	: Securely chain cylinders when in use and protect against physical damage.
Hygiene measures	: Handle in accordance with good industrial hygiene and safety procedures. Do not eat, drink or smoke when using this product. Always wash hands after handling the product.
7.2. Conditions for safe storage, inclu	ding any incompatibilities
Technical measures	: Comply with applicable regulations.
Storage conditions	: Protect from sunlight. Do not expose to temperatures exceeding 50 °C. Keep container closed when not in use. Keep away from ignition sources.
Incompatible materials	: Refer to Section 10 on Incompatible Materials.
Storage area	: Store in dry, cool, well-ventilated area.

SECTION 8: Exposure controls/personal protection

8.1. **Control parameters**

No additional information available

8.2. Exposure controls	
Appropriate engineering controls	Ensure good ventilation of the work station. Emergency eye wash fountains and safety showers should be available in the immediate vicinity of any potential exposure. Systems under pressure should be regularily checked for leakage. Oxygen detectors should be used when asphyxiating gases may be released.
Hand protection	: Protective gloves. 29 CFR 1910.138: Hand Protection.
Eye protection	: Chemical goggles or safety glasses. Face shield. 29 CFR 1910.133: Eye and Face Protection.
Skin and body protection	: Wear suitable protective clothing.
Respiratory protection	: In case of inadequate ventilation wear respiratory protection. 29 CFR 1910.134: Respiratory Protection.
Thermal hazard protection	: Cold insulating gloves.
Other information	: Safety shoes. 29 CFR 1910.136: Foot Protection.

SECTION 9: Physical and chemical properties Information on basic physical and chemical properties 9.1.

-

Safety Data Sheet according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

Color	: No data available
Odor	: No data available
Odor threshold	: No data available
рН	: No data available
Melting point	: No data available
Freezing point	: No data available
Boiling point	: -42 °C
Flash point	: No data available
Relative evaporation rate (butyl acetate=1)	: No data available
Flammability (solid, gas)	: No data available
Explosion limits	: No data available
Explosive properties	: No data available
Oxidizing properties	: No data available
Vapor pressure	: No data available
Relative density	: No data available
Relative vapor density at 20 °C	: No data available
Molecular mass	: 64.0341 g/mol
Solubility	: No data available
Log Pow	: No data available
Auto-ignition temperature	: No data available
Decomposition temperature	: No data available
Viscosity	: No data available
Viscosity, kinematic	: No data available
Viscosity, dynamic	: No data available

Other information 9.2.

No additional information available

SECTION 10: Stability and reactivity
10.1. Reactivity
No additional information available
10.2. Chemical stability
The product is stable at normal handling and storage conditions.
10.3. Possibility of hazardous reactions
May polymerize.
10.4. Conditions to avoid
Protect from sunlight. Do not expose to temperatures exceeding 50 °C. Keep away from heat, sparks and flame.
10.5. Incompatible materials
Carbon tetrachloride. Chlorine. Copper and its alloys. Strong oxidizing agents. Vinyl compounds.
10.6. Hazardous decomposition products
Under normal conditions of storage and use, hazardous decomposition products should not be produced. Hazardous decomposition products in case of fire, see Section 5.
SECTION 11: Toxicological information
11.1. Information on toxicological effects
Aquita taxiaity

Acute toxicity	: Not classified
Skin corrosion/irritation	: Not classified
Serious eye damage/irritation	: Not classified
Respiratory or skin sensitization	: Not classified
Germ cell mutagenicity	: Not classified
Carcinogenicity	: Not classified
Reproductive toxicity	: Not classified

Safety Data Sheet according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

Specific target organ toxicity (single exposure)	: May cause drowsiness or dizziness. May cause respiratory irritation.
Specific target organ toxicity (repeated exposure)	: Not classified
Aspiration hazard	: Not classified
Symptoms/injuries after inhalation	: May cause drowsiness or dizziness.
Symptoms/injuries after skin contact	: Contact with the liquid the may cause cold burns/frostbite.
Symptoms/injuries after eye contact	: Direct contact with the liquefied gas may cause severe and possibly permanent eye injury due to frostbite from rapid liquid evaporation.

SECTION 12: Ecological information
12.1. Toxicity
No additional information available
12.2. Persistence and degradability
No additional information available
12.3. Bioaccumulative potential
No additional information available
12.4. Mobility in soil
No additional information available
12.5. Other adverse effects
No additional information available

SECTION 13: Disposal consideration	IS
13.1. Waste treatment methods	
Waste treatment methods Waste disposal recommendations Additional information	 Remove to an authorized incinerator equipped with an afterburner and a flue gas scrubber. Dispose of contents/container in accordance with licensed collector's sorting instructions. Recycle the material as far as possible.
SECTION 14: Transport information	
Department of Transportation (DOT) In accordance with DOT Transport document description	: UN3161 Liquefied gas, flammable, n.o.s., 2.1
UN-No.(DOT) Proper Shipping Name (DOT) Transport hazard class(es) (DOT) Hazard labels (DOT)	 : UN3161 : Liquefied gas, flammable, n.o.s. : 2.1 - Class 2.1 - Flammable gas 49 CFR 173.115 : 2.1 - Flammable gas

DOT Packaging Bulk (49 CFR 173.xxx)	: 314;315
DOT Symbols	: G - Identifies PSN requiring a technical name
DOT Special Provisions (49 CFR 172.102)	: T50 - When portable tank instruction T50 is referenced in Column (7) of the 172.101 Table, the applicable liquefied compressed gases are authorized to be transported in portable tanks in accordance with the requirements of 173.313 of this subchapter.
DOT Packaging Exceptions (49 CFR 173.xxx)	: 306
DOT Quantity Limitations Passenger aircraft/rail (49 CFR 173.27)	: Forbidden
DOT Quantity Limitations Cargo aircraft only (49 CFR 175.75)	: 150 kg

Safety Data Sheet

according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

DOT Vessel Stowage Location	: D - The material must be stowed "on deck only" on a cargo vessel and on a passenger vessel carrying a number of passengers limited to not more than the larger of 25 passengers or one passenger per each 3 m of overall vessel length, but the material is prohibited on passenger vessels in which the limiting number of passengers is exceeded.
DOT Vessel Stowage Other	: 40 - Stow "clear of living quarters"
Other information	: No supplementary information available.
TDG	
No additional information available	
Transport by sea	
UN-No. (IMDG)	: 3161
Proper Shipping Name (IMDG)	: LIQUEFIED GAS, FLAMMABLE, N.O.S.
Class (IMDG)	: 2 - Gases
Air transport	
UN-No. (IATA)	: 3161
Proper Shipping Name (IATA)	: Liquefied gas, flammable, n.o.s.
Class (IATA)	: 2

15.1. US Federal regulations

All components of this product are listed, or excluded from listing, on the United States Environmental Protection Agency Toxic Substances Control Act (TSCA) inventory except for:

trans-1,2-Difluoroethylene	CAS No 1630-78-0	100%

This product or mixture does not contain a toxic chemical or chemicals in excess of the applicable de minimis concentration as specified in 40 CFR §372.38(a) subject to the reporting requirements of section 313 of Title III of the Superfund Amendments and Reauthorization Act of 1986 and 40 CFR Part 372.

15.2. International regulations

CANADA

No additional information available

EU-Regulations No additional information available

National regulations

No additional information available

15.3. US State regulations

California Proposition 65 - This product does not contain any substances known to the state of California to cause cancer and/or reproductive harm

SECTION 16: Other information

Full text of	H-phrases:
--------------	------------

Flam. Gas 1	Flammable gases Category 1
Liquefied gas	Gases under pressure Liquefied gas
Simple Asphy	Simple Asphyxiant
STOT SE 3	Specific target organ toxicity (single exposure) Category 3
STOT SE 3	Specific target organ toxicity (single exposure) Category 3
H220	Extremely flammable gas
H280	Contains gas under pressure; may explode if heated
H335	May cause respiratory irritation
H336	May cause drowsiness or dizziness
H380	May displace oxygen and cause rapid suffocation

Safety Data Sheet according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

NFPA health hazard	: 1 - Exposure could cause irritation but only minor residual injury even if no treatment is given.
NFPA fire hazard	 4 - Will rapidly or completely vaporize at normal pressure and temperature, or is readily dispersed in air and will burn readily.
NFPA reactivity	: 3 - Capable of detonation or explosive reaction, but requires a strong initiating source or must be heated under confinement before initiation, or reacts explosively with water.
HMIS III Rating	
Health	: 1 Slight Hazard - Irritation or minor reversible injury possible
	* - Chronic (long-term) health effects may result from repeated overexposure
Flammability	: 4 Severe Hazard - Flammable gases, or very volatile flammable liquids with flash points below 73 F, and boiling points below 100 F. Materials may ignite spontaneously with air. (Class IA)
Physical	: 3 Serious Hazard - Materials that may form explosive mixtures with water and are capable of detonation or explosive reaction in the presence of a strong initiating source. Materials may polymerize, decompose, self-react, or undergo other chemical change at normal temperature and pressure with moderate risk of explosion
