

Tris(2,2-difluoroethyl) borate Safety Data Sheet 6160302 according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations Date of issue: 04/12/2019 Version: 1.0

1.1. Identification	
Product form	: Substance
Substance name	: Tris(2,2-difluoroethyl) borate
CAS No	: 1396338-09-2
Product code	: 6160-3-02
Formula	: C6H9BF6O3
Synonyms	: Tris(2,2-difluoroethoxy) boron
Other means of identification	: MFCD19442172
1.2. Relevant identified uses of the s	substance or mixture and uses advised against
Use of the substance/mixture	: Laboratory chemicals Manufacture of substances Scientific research and development
1.3. Details of the supplier of the saf	fety data sheet
SynQuest Laboratories, Inc. P.O. Box 309 Alachua, FL 32615 - United States of Americ T (386) 462-0788 - F (386) 462-7097 info@synquestlabs.com - www.synquestlabs	
1.4. Emergency telephone number	
Emergency number	: (844) 523-4086 (3E Company - Account 10069)
SECTION 2: Hazard(s) identificati	ion
2.1. Classification of the substance

Get medical advice/attention.         4.2.       Most important symptoms and effects, both acute and delayed         Symptoms/injuries       : The most important known symptoms and effects are described in the labelling (see size.2) and/or in section 11.         4.3.       Indication of any immediate medical attention and special treatment needed         Treat symptomatically.       SECTION 5: Firefighting measures         5.1.       Extinguishing media         Suitable extinguishing media       : Alcohol resistant foam. Carbon dioxide. Dry powder. Use extinguishing media approprisurrounding fire.         5.2.       Special hazards arising from the substance or mixture         Fire hazard       : Thermal decomposition generates: Borane/boron oxides. Carbon oxides. Hydrogen flu         Explosion hazard       : Risk of explosion if heated under confinement. Use water spray or fog for cooling explosion containers. May form flammable/explosive vapor-air mixture.					
First-aid measures after eye contact       : Immediately flush eyes thoroughly with water for at least 15 minutes. Remove contact present and easy to do. Continue rinsing. Get medical advice/attention.         First-aid measures after ingestion       : Do NOT induce vomiting. Never give anything by mouth to an unconscious person. Rimouth out with water. Get medical advice/attention.         4.2.       Most important symptoms and effects, both acute and delayed         Symptoms/injuries       : The most important known symptoms and effects are described in the labelling (see sec. 2.2) and/or in section 11.         4.3.       Indication of any immediate medical attention and special treatment needed         Treat symptomatically.       SECTION 5: Firefighting measures         5.1.       Extinguishing media         Suitable extinguishing media       : Alcohol resistant foam. Carbon dioxide. Dry powder. Use extinguishing media approprisurrounding fire.         5.2.       Special hazards arising from the substance or mixture         Fire hazard       : Thermal decomposition generates: Borane/boron oxides. Carbon oxides. Hydrogen flu         Explosion hazard       : Risk of explosion if heated under confinement. Use water spray or fog for cooling exportentions. May form flammable/explosive vapor-air mixture.         5.3.       Advice for firefighters	-aid measures after inhalation :		able for breathin	g. If not breathing, give artificial	
First-aid measures after ingestion       : Do NOT induce vomiting. Never give anything by mouth to an unconscious person. Rimouth out with water. Get medical advice/attention.         4.2.       Most important symptoms and effects, both acute and delayed         Symptoms/injuries       : The most important known symptoms and effects are described in the labelling (see size.2.) and/or in section 11.         4.3.       Indication of any immediate medical attention and special treatment needed         Treat symptomatically.       SECTION 5: Firefighting measures         5.1.       Extinguishing media         Suitable extinguishing media       : Alcohol resistant foam. Carbon dioxide. Dry powder. Use extinguishing media approprisurrounding fire.         5.2.       Special hazards arising from the substance or mixture         Fire hazard       : Thermal decomposition generates: Borane/boron oxides. Carbon oxides. Hydrogen flu         Explosion hazard       : Risk of explosion if heated under confinement. Use water spray or fog for cooling export containers. May form flammable/explosive vapor-air mixture.         5.3.       Advice for firefighters					
4.2.       Most important symptoms and effects, both acute and delayed         Symptoms/injuries       : The most important known symptoms and effects are described in the labelling (see ser 2.2) and/or in section 11.         4.3.       Indication of any immediate medical attention and special treatment needed         Treat symptomatically.         SECTION 5: Firefighting measures         5.1.       Extinguishing media         Suitable extinguishing media       : Alcohol resistant foam. Carbon dioxide. Dry powder. Use extinguishing media appropr surrounding fire.         5.2.       Special hazards arising from the substance or mixture         Fire hazard       : Thermal decomposition generates: Borane/boron oxides. Carbon oxides. Hydrogen flu         Explosion hazard       : Risk of explosion if heated under confinement. Use water spray or fog for cooling export containers. May form flammable/explosive vapor-air mixture.         5.3.       Advice for firefighters		present and easy to do. Continue rinsing. Get	medical advice/	attention.	
Symptoms/injuries       : The most important known symptoms and effects are described in the labelling (see service) 2.2) and/or in section 11.         4.3.       Indication of any immediate medical attention and special treatment needed         Treat symptomatically.         SECTION 5: Firefighting measures         5.1.       Extinguishing media         Suitable extinguishing media       : Alcohol resistant foam. Carbon dioxide. Dry powder. Use extinguishing media approprisurrounding fire.         5.2.       Special hazards arising from the substance or mixture         Fire hazard       : Thermal decomposition generates: Borane/boron oxides. Carbon oxides. Hydrogen flue         Explosion hazard       : Risk of explosion if heated under confinement. Use water spray or fog for cooling export containers. May form flammable/explosive vapor-air mixture.         5.3.       Advice for firefighters				unconscious person. Rinse	
2.2) and/or in section 11.         4.3. Indication of any immediate medical attention and special treatment needed         Treat symptomatically.         SECTION 5: Firefighting measures         5.1. Extinguishing media         Suitable extinguishing media         Suitable extinguishing media         S.2. Special hazards arising from the substance or mixture         Fire hazard       : Thermal decomposition generates: Borane/boron oxides. Carbon oxides. Hydrogen flu         Explosion hazard       : Risk of explosion if heated under confinement. Use water spray or fog for cooling export containers. May form flammable/explosive vapor-air mixture.         5.3. Advice for firefighters	Most important symptoms and effects,	, both acute and delayed			
Treat symptomatically.         SECTION 5: Firefighting measures         5.1.       Extinguishing media         Suitable extinguishing media       : Alcohol resistant foam. Carbon dioxide. Dry powder. Use extinguishing media approprisurrounding fire.         5.2.       Special hazards arising from the substance or mixture         Fire hazard       : Thermal decomposition generates: Borane/boron oxides. Carbon oxides. Hydrogen flue         Explosion hazard       : Risk of explosion if heated under confinement. Use water spray or fog for cooling export containers. May form flammable/explosive vapor-air mixture.         5.3.       Advice for firefighters	ptoms/injuries :		ects are describe	ed in the labelling (see section	
SECTION 5: Firefighting measures         5.1.       Extinguishing media         Suitable extinguishing media       : Alcohol resistant foam. Carbon dioxide. Dry powder. Use extinguishing media approprisurrounding fire.         5.2.       Special hazards arising from the substance or mixture         Fire hazard       : Thermal decomposition generates: Borane/boron oxides. Carbon oxides. May form flammable/explosive vapor-air mixture.         5.3.       Advice for firefighters	Extinguishing media				
Fire hazard       : Thermal decomposition generates: Borane/boron oxides. Carbon oxides. Hydrogen flu         Explosion hazard       : Risk of explosion if heated under confinement. Use water spray or fog for cooling export containers. May form flammable/explosive vapor-air mixture.         5.3.       Advice for firefighters	able extinguishing media :		owder. Use extir	nguishing media appropriate for	
Explosion hazard       : Risk of explosion if heated under confinement. Use water spray or fog for cooling exportance containers. May form flammable/explosive vapor-air mixture.         5.3.       Advice for firefighters	Special hazards arising from the subst	tance or mixture			
5.3.       Advice for firefighters	Fire hazard : Thermal decomposition generates: Borane/boron oxides. Carbon oxides. Hydrogen fluoride.				
	osion hazard :			ay or fog for cooling exposed	
Firefighting instructions : In case of fire: Evacuate area. Fight fire remotely due to the risk of explosion.	Advice for firefighters				
	ighting instructions :	In case of fire: Evacuate area. Fight fire remo	tely due to the ris	sk of explosion.	
Protection during firefighting : Wear gas tight chemically protective clothing in combination with self contained breath apparatus. For further information refer to section 8: "Exposure controls/personal protective clothing in combination with self contained breath apparatus."					

Safety Data Sheet according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

SECTION 6: Accidental release measures			
6.1. Personal precautions, protective equipment and emergency procedures			
General measures	: Evacuate unnecessary personnel. Ensure adequate air ventilation. Do not breathe gas, fumes, vapor or spray.		
6.1.1. For non-emergency personnel			
Emergency procedures : Only qualified personnel equipped with suitable protective equipment may intervene.			
6.1.2. For emergency responders			
Protective equipment	: Do not attempt to take action without suitable protective equipment. For further information refer to section 8: "Exposure controls/personal protection".		
Emergency procedures	: Gas/vapor heavier than air. May accumulate in confined spaces, particularly at or below ground level. Consider the risk of potentially explosive atmospheres. Eliminate every possible source of ignition.		
6.2. Environmental precautions			
Avoid release to the environment. Notify authoritie	es if product enters sewers or public waters.		
6.3. Methods and material for containme	nt and cleaning up		
For containment	: Stop leak if safe to do so. Dike for recovery or absorb with appropriate material.		
Methods for cleaning up	: Take up large spills with pump or vacuum and finish with dry chemical absorbent. Use explosion-proof equipment. Take up small spills with dry chemical absorbent. Sweep or shovel spills into appropriate container for disposal. Ventilate area.		
Other information	: For disposal of solid materials or residues refer to section 13 : "Disposal considerations".		
6.4. Reference to other sections			
No additional information available			
SECTION 7: Handling and storage			
7.1. Precautions for safe handling			
Additional hazards when processed	: Handle empty containers with care because residual vapors are flammable.		
Precautions for safe handling	Do not handle until all safety precautions have been read and understood. Ensure good ventilation of the work station. Do not breathe fumes, mist, spray, vapors. Wear personal protective equipment. Avoid contact with skin and eyes. Keep away from ignition sources (including static discharges). Proper grounding procedures to avoid static electricity should be followed. Use only non-sparking tools.		
Hygiene measures	: Handle in accordance with good industrial hygiene and safety procedures. Do not eat, drink or smoke when using this product. Always wash hands after handling the product.		
7.2. Conditions for safe storage, including any incompatibilities			
Technical measures	: Comply with applicable regulations.		
Storage conditions	: Keep container closed when not in use. Keep away from ignition sources.		
Incompatible materials	: Refer to Section 10 on Incompatible Materials.		
Storage area : Store in dry, cool, well-ventilated area.			

## SECTION 8: Exposure controls/personal protection

### 8.1. **Control parameters**

No additional information available

8.2. Exposure controls	
Appropriate engineering controls	: Ensure good ventilation of the work station. Emergency eye wash fountains and safety showers should be available in the immediate vicinity of any potential exposure.
Hand protection	: Protective gloves. 29 CFR 1910.138: Hand Protection.
Eye protection	: Chemical goggles or safety glasses. Face shield. 29 CFR 1910.133: Eye and Face Protection.
Skin and body protection	: Wear suitable protective clothing.
Respiratory protection	: In case of inadequate ventilation wear respiratory protection. 29 CFR 1910.134: Respiratory Protection.
Other information	: Safety shoes. 29 CFR 1910.136: Foot Protection.

Safety Data Sheet

according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

SECTION 9: Physical and chemical properties			
9.1. Information on basic physical an	d chemical properties		
Physical state	: Liquid		
Color	: No data available		
Odor	: No data available		
Odor threshold	: No data available		
рН	: No data available		
Melting point	: No data available		
Freezing point	: No data available		
Boiling point	: No data available		
Flash point	: No data available		
Relative evaporation rate (butyl acetate=1)	: No data available		
Flammability (solid, gas)	: No data available		
Explosion limits	: No data available		
Explosive properties	: No data available		
Oxidizing properties	: No data available		
Vapor pressure	: No data available		
Relative density	: No data available		
Relative vapor density at 20 °C	: No data available		
Molecular mass	: 253.935 g/mol		
Solubility	: No data available		
Log Pow	: No data available		
Auto-ignition temperature	: No data available		
Decomposition temperature	: No data available		
Viscosity	: No data available		
Viscosity, kinematic	: No data available		
Viscosity, dynamic	: No data available		
9.2. Other information			
No additional information available			
SECTION 10: Stability and reactivity			
10.1. Reactivity			

No additional information available

#### 10.2. **Chemical stability**

The product is stable at normal handling and storage conditions.

#### 10.3. Possibility of hazardous reactions

No additional information available

## **Conditions to avoid** Keep away from heat, sparks and flame.

#### 10.5. **Incompatible materials**

Strong acids. Strong bases. Strong oxidizing agents.

#### 10.6. Hazardous decomposition products

Under normal conditions of storage and use, hazardous decomposition products should not be produced. Hazardous decomposition products in case of fire, see Section 5.

SECTION 11: Toxicological information			
11.1. Information on toxicological effects			
Acute toxicity	: Not classified		
Skin corrosion/irritation	: Causes skin irritation.		
Serious eye damage/irritation	: Causes serious eye irritation.		
Respiratory or skin sensitization	: Not classified		

10.4.

## Safety Data Sheet

according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

Germ cell mutagenicity	: Not classified
Carcinogenicity	: Not classified
Reproductive toxicity Specific target organ toxicity (single exposure)	<ul><li>Not classified</li><li>May cause respiratory irritation.</li></ul>
Specific target organ toxicity (repeated exposure)	: Not classified
Aspiration hazard	: Not classified

SECT	ION 12: Ecological information
12.1.	Toxicity
No addi	tional information available
12.2.	Persistence and degradability
No addi	tional information available
12.3.	Bioaccumulative potential
No addi	tional information available
12.4.	Mobility in soil
No addi	tional information available
12.5.	Other adverse effects

No additional information available

SECTION 13: Disposal considerations			
13.1. Waste treatment methods			
Waste treatment methods	: Remove to an authorized incinerator equipped with an afterburner and a flue gas scrubber.		
Waste disposal recommendations	: Dispose of contents/container in accordance with licensed collector's sorting instructions.		
Additional information	: Recycle the material as far as possible.		
SECTION 14: Transport information			

### **Department of Transportation (DOT)**
